Why Progress Training Works

Progress Program Design and Methodology

This program can be conducted as an intensive one day workshop, or it can be integrated with the BEST Leadership Development program with scheduled follow-up sessions to de-brief and coach for full support in shifting both personal and organisational behaviour.

At Progress Training Systems we undertake extensive briefings and orientation activities with clients to ensure we understand your corporate culture, terminology and procedures. We conduct diagnostic evaluations to enable us, in partnership with you, to tailor and customise the selected program to suit your organisation's style, services and other development activities.

In our own experience, a lot of time and money can be wasted on development programs that don't work. We want to achieve results, for our clients primarily - but also for our own satisfaction, reputation and referral business. We know that the only effective behavioural change occurs over time, with good on-the-job coaching and support. We work hard to create clarity of role and purpose, to define and impart skills through practical and memorable systems, and to ensure a lasting legacy that continues to achieve results long after we have left. Within client parameters, we build our programs on our own fundamental Progress Training Systems principles and philosophies.

Our programs are lively, interactive and enjoyable, providing valuable discovery - learning processes in a secure and friendly environment.
