The Leadership Stretch Program

‘Inspiring and motivating to influence and improve their teams’ performance’

This exclusive Master Class is designed and developed specifically for Team Leaders and Supervisors who are ready for the next step in their career, escalating their management and leadership competencies.

This is an opportunity to work with a master facilitator in a workshop designed to challenge your thinking, current skills and strategies, enabling you to further explore solutions in managing major challenges and leading more effectively.

Join us to explore the four key topic areas:

1. Strategic Thinking
2. Keeping Your Top Talent
3. Building a Learning Culture
4. Managing Change

Within these topic areas, in an intensive collaborative learning format (which assumes successful Team Leader experience), we will cover areas such as:

- Developing and communicating purpose, passion and priorities
- Understanding, recognising and managing differences
- Exploring your habitual leadership priorities and expanding your toolkit
- The essential principles of Motivation, Recognition and Reward
- The importance of empathy in a learning culture
- Developing innovation and creativity as a team habit
- Understanding and avoiding change resistance
- Creating the conditions for successful change.

Participation numbers are limited to 25, to allow full engagement. This will be a life-altering experience, with key take aways information and processes to immediately impact leadership skills, but more importantly to expand leadership capacity well into the future.

Why Progress Training Works

Progress Program Design and Methodology

At Progress Training Systems we undertake extensive briefings and orientation activities with clients to ensure we understand your corporate culture, terminology and procedures. We conduct diagnostic evaluations to enable us, in partnership with you, to tailor and customise the selected program to suit your organisation's style, services and other development activities.

Research has shown that effective behavioural change occurs over time - with good on-the-job coaching and support. We work hard with participants to create clarity of role and purpose, and define and impart skills through practical and memorable systems to ensure a lasting legacy that continues to achieve results long after we have left. Within client parameters, we build our programs on our own fundamental Progress Training Systems principles and philosophies.

This program is lively, interactive and enjoyable, providing valuable discovery-learning processes in a friendly environment, ensuring full support is provided in shifting both personal and organisational behaviour.
